and

syndicated to more websites!

A lot of other agents rely solely on MLS syndication to reach buyers. Dan reaches out to more syndication services to add custom links that send more traffic to your property's webpage.

Syndication services such as Zillow and Trulia allow agents to add more information to their claimed listings. Links to photo galleries, videos, webpages, and more can help reach a larger audience and increase your webpage's SEO.

In addition to the sites seen in the above graphic, Dan's extra syndication steps can help get your listing seen on these extra sites:
